EDUCATIONAL PHILOSOPHY

The Board of Directors of the Anita Community School District is committed to a philosophy of service to children. The objective of this philosophy is to help each child develop into a mature individual and a contributing member of society. The Board believes that this objective can best be met through a school program wide enough in scope to encompass the intellectual, physical, civic, social and aesthetic education of children.

The Board of Directors realizes that an effective public school program must be directed toward common needs of all children; however, the Board believes the emphasis must lie always on the unique needs of each individual child.

The Board of Directors recognizes that the guardianship of public education is a trust and an obligation--that the goals of education and the goals of democracy are fundamentally the same. For that reason, the Board considers that its philosophy and objectives can best be realized when the educational program is directed through written Board Policies, policies that are based on the Constitution, the state statutes, federal and state regulations, and the specific needs of this school district.
