

SCHOOL-COMMUNITY RELATIONS

Relations Between School Personnel and the Public

Participation in Community Life

It shall be the policy of the Board of Directors to encourage personnel of the School District to participate in community activities. Such participation should include not only active membership in local organizations but should encourage active roles in the community issues and political parties.

It shall be the policy of the Board of Directors to prohibit exertion of pressure on staff members to affiliate with organizations or to participate in activities deemed unacceptable to the individual staff members. Personnel shall have the freedom of choice to participate in any activity that will be in keeping with the overall goals and objectives of our overall program.
